

mkgallery shortcode for Quarto

2024-10-16

Table of contents

Installation	1
Using the shortcode	1
Example	3
Version info	3

i Note

mkgallery only available when rendering HTML document. For other rendering format, it will just list up the images.

mkgallery shortcode, use the following syntax:

```
{{< mkgallery articles/imgs >}}
```

This will embed all images from the articles/imgs/ directory onto your document.

Instalation

To use the mkgallery extension in your Quarto project, follow these steps:

1. Run the following command in your terminal within the project's working directory. This will install the extension under the `_extensions` subdirectory:

```
quarto add t-arae/mkgallery
```

2. Once installed, apply the mkgallery filter by adding the following lines to the YAML header of your `.qmd` file:

```
filters:  
- t-arae/mkgallery
```

beko.jpeg

Using the shortcode

To display images from the articles/imgs/ directory in your Quarto document using the

beko.png

beko_gray.png

beko_blur.png

beko_half.jpg

```
pandoc 3.2
Features: +server +lua
Scripting engine: Lua 5.4
```

beko_noise.png

beko_one_fourth.jpg

Example
